**Topic**

**Name**

**Area of Focus/Expertise**

*Note:* Obviously many of these individuals can fall into more than one category, but for the purposes of this sheet, each individual is listed only once. *Another Note:* This list is intended to be useful as a study-planning tool, and is *not* a definitive list of people or topics that should be memorized for comps. Previous comps takers have recommended knowing fewer people more thoroughly than many people superficially. *A Final Note:* This is not a list of all the important historical or current sexologists, and sincere apologies for omitting anyone.
